### **DETAILED ACTION**

1. This office action is in response to application 10/634,634 and Amendment filed on 10/03/2005. Independent claims 1, 13, 25 and 37 have been amended by including additional limitations. Claims 1-45 remain pending in the application.

#### ***Allowable Subject Matter***

2. Claims 1-45 are allowed over prior art of record.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest or render obvious:

A method for mapping platform-based design to multiple foundry processes, comprising: predefining a slice, said slice being a constrained and abstract specification of all IP, characteristics of interconnect, memory structures, I/O's, and a transistor array of a chip; mapping said slice onto a first fabrication process having a first set of design rules to produce a first result; evaluating said slice with a second fabrication process having a second set of design rules to produce a second result; and comparing first and seconds results to produce a third result.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
